

Optimise V

The fast, virtual, Supply Chain Learning simulation

What is it?

A 3 - 4 hour supply chain learning simulation tailored to your business containing:

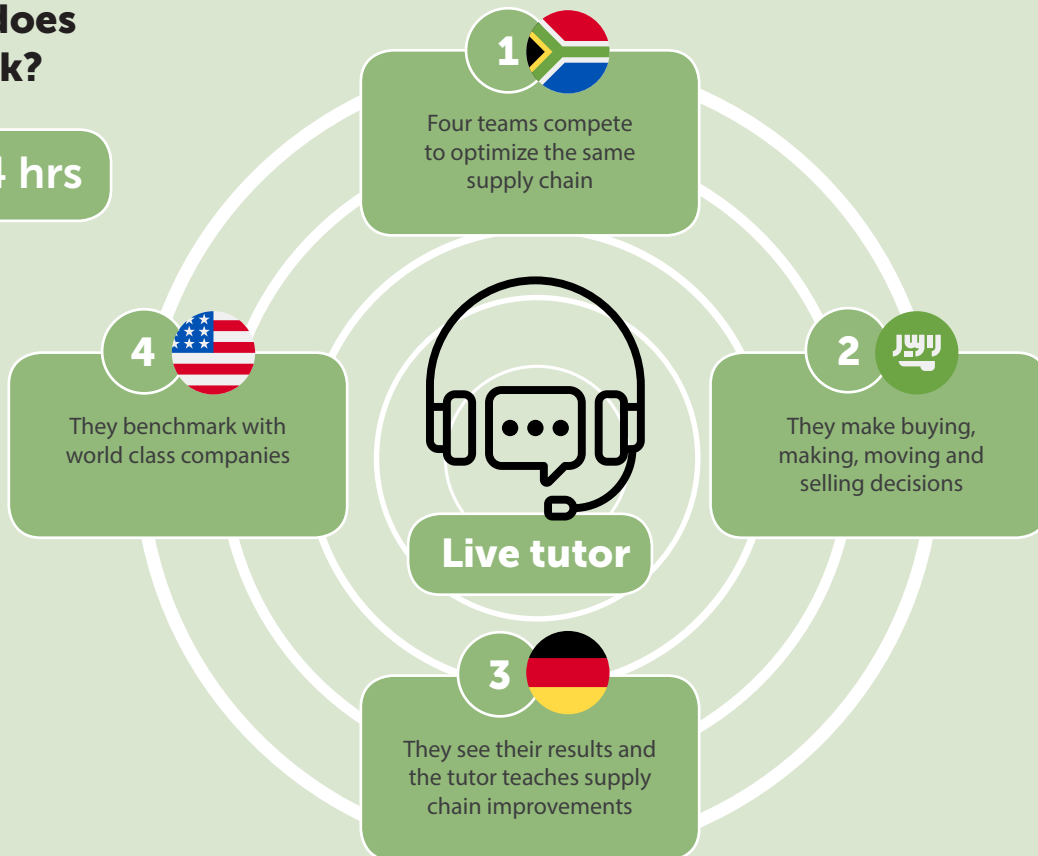

- Risk free end to end supply chain decision making with results
- Live tutor support and latest thinking in world class supply chain companies

It is also fun and the participants say:

- “The Tutor was really great – it’s just like our business and helps our productivity agenda”
- “A fantastic way to learn! Fast, fun and energetic!”
- “The simulation is very realistic. We should be able to apply the service and cost saving learnings from OptimiseV into our real supply chain”

How does it work?

🕒 3-4 hrs

What is the value for you and your business?

- 💰 Very similar to quality and attention to classroom learning – but at less cost!
- 🕒 A fast 3 – 4 hour learning design allowing participants to not be out of the business for long
- 🗣️ Expert supply chain tutor live to teach and answer questions
- ✓ Excellent feedback and results – creating application in your business with a return
- 🌐 World class supply chain learning material to apply in the business
